Our Trials and Tribulations in life should
teach us valuable lessons . You will fall a
million times and will not be considered a
quitter as long as you pick yourself up from
the fall . Concentrate on the process of
getting where you wish to be . Don't focus
so much on the outcome . Don't lose focus
of what's before you by concentrating so
much on the future . Be open minded to the
many opportunities before you . "Life is a
GIFT" let's treat it as that .

'Hey Mitch can you press record?'

'WIGGLES' go to Mo

Danielle- the best lab partner EVER- don't forget our 5 hour breaks, our fun in Anthro and all the laughs!

and the WeatherLady would like to wish the best to those graduating in the coming years! I'll miss you!

GOOD LUCK Class of 2012!!!!

-April DeVoe

To my fellow Forensic Science mates,
in all three tracks: Five years (and for some of us more than 5) have gone by in a blink of an eye. We were all noobs trying to figure out how to use the buret from our lowly days as Gen Chem students and now we've finished the last semester of our undergraduate lives. I'm glad to have met and become great friends with most of you guys and can't wish anything more than the best for all of you (especially when it comes to looking for jobs). And once you've all become super famous from finding a cure to cancer, don't forget your humble roots at JJAY because we all, at one point in our years, could not figure out where to dump most of our solvents and as most of us said, "it's water."

It has been an exciting and fulfilling journey at John Jay College. We have learned the necessary skills to combat any obstacle that may stand in our way. I would like to thank all of my family members, friends and professors who have supported me through this great accomplishment. Congratulations to my fellow graduates, may we continue to grow, prosper and bring justice to this world.

Wilkins De Leon

Congrats to all my fellow 2012 graduates. It has been a great experience here @ John Jay, one I will never forget. I've learned from the best! I would like to thank all my teachers for helping me by acquiring what was expected from me and also my family and friends that took this long journey with me. I've met great people along the way, which have greatly impacted my life and inspired me. Like my dad always quoted to me "Success is achieved by those who try and keep trying with a positive mental attitude." - W. Clement Stone & "Success is measured in terms of reaching your goals, dreams, and expectations. Your success is determined by hard work, persistence, and determination. If you are going to be a success in life, it is up to you... it is your responsibility." - Will Horton.

Thanks again for this wonderful experience.

Yearbook Comimittee

As we come to the close of our undergraduate and graduate experience, I ask that you commit to a two-second exercise: reminisce on the many long and daunting years we've spent studying for exams, writing papers, conducting research, analyzing and critiquing legal documents and/or academic publications, preparing for speeches, debates or any other formal address to the public. After all the late nights, painful moments of caffeine withdrawal, early morning classes, over-night study groups, constant highlighting, note-taking, cramming, all-nighters, and tedious lectures, we can finally stand here today with smiles touching from cheek-to-cheek and say "We did it!" We've achieved one of the most important goals of our lives and obtained an invaluable experience with it, which will remain in our memory forever.

We will move on to bigger and much more challenging obstacles life has to offer us. But no matter where we go hereafter, we will always remember the first time we stepped foot on John Jay College, all the wonderful and different people we have met since, the many years of self-improvement, and most importantly our transition from amateurs to scholars. We are not, however, limited to our scholarship. Our fine institution is responsible for the development of future leaders. Throughout our time at John Jay College of Criminal Justice, we have learned civic responsibility, leadership skills, and outstanding professionalism. This institution has shaped us into the young professionals we are today and, as fierce advocates for justice, we will further our humanitarian efforts by incorporating these values into our prospective careers proudly.

Congratulations class of 2012!

Sincerely,

Abigail Padilla

Dear Class of 2012,

Congratulations!! No More One-Stop/JayStop/Jay Express Lines, we must find a new excuse to be late to anything! Many of our friendships started in long lines in the North Building and being transferred to several other offices. Our journey and struggle to make sense of College allowed us to become experts at communication, fast talking, and New York City Speed Walking. The nights many spent at the library can be the equivalent that some spent on the computer doing last minute assignments. Creating schedules to accomodate our work or sleep schedule will disappear, and the option to switch from a Friday Class for a Four Day Weekend will vanish as well. My experiences at John Jay College has been phenomial, and I have met some of my bestfriends here. John Jay College became my second home!

I wish everyone HAPPINESS and SUCCESS in your future endeavours! We can accomplish anything we set our minds to.

As the Chair Person for the Yearbook, I would like to Thank the Yearbook Team for their dedication in putting this yearbook together! We have captured the memories of many to share in the future!

Sincerely,

Rhonda Nieves

Thank God because, He has guided and strengthened us to bring to fruition this race. May God bless this project that we conclude today and that will make way for a life of work and service for others. May this be a generation of noble and honest leaders who can put a positive spin to our society. I hope that all prosper and God bless our wonderful college.

obstacles that will be thrown your

"You've worked hard to get where
you are today, and now that you're
getting your degree all of that hard
work has paid off. Good luck in
all your future endeavors, and
hopefully the friends and memories
you've made at John Jay will last a
lifetime!"

Hema Shamnarine

Dear Class of 2012:

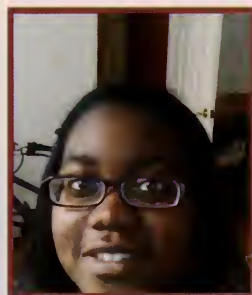

We've come a long way! Over the
years, we've studied, we've worked,
and we've played. We've met new
friends and mentors. All these
experiences have come together to
make us better than we were when
we first came to John Jay. We've
learned many things, from thinking
more critically, to writing better, to
becoming more conscious of the
different ways we can make the
world better for people. Going to
John Jay has made us smarter and
more open to different people and
different ideas; more dedicated to
helping people in need.

I hope everyone in the graduating
class goes on to become successful in
whatever professional or academic
pursuits they have. Remember to stay
positive and determined; we already
know how to work hard from going
to John Jay, so that won't be difficult
for us. To be successful, you have to
work hard, and we are successful.

We're graduating!

With the highest hopes, and the best
wishes of luck and happiness,

Crystal Charles,
